Experience

CONSID AB

FEB - MAY | 2024

Role:

Internship as a Web Developer/App Developer.

Methods:

Node.JS, React Native, React, MySQL, Typescript, Android Studio, GIT, Github, Scrum, Kanban, Jest Unit Testing

Job description:

I've been tasked with creating a mobile application targeting Consid's sales team. The purpose of the app is to simplify and streamline the daily activities of the sales representatives, allowing them to easily search for consultants who match the project requests using a search algorithm.

I've been responsible for laying the groundwork and developing both the frontend and backend using technologies such as React Native, Typescript, Node.js, Express, Sequelize, and MySQL.

Part of my work involves creating an administration panel for both web and mobile applications, where tasks such as managing consultants are handled. Additionally, I've been in charge of developing the search algorithm and the overall user experience on the mobile application.

SIGMA TECHNOLOGY GROUP

SEP - DEC | 2023

Role:

Internship as a Web Developer

Methods:

Java, React, Typescript, Spring Boot, PostgreSQL, Material UI, React Router v6, DevOps Azure, Scrum, Kanban

Job description:

I participated in the ESTM8 project. This project already had defined technologies including Java, Spring Boot for the backend, and PostgreSQL. The frontend was developed using React, React Hook Forms, and Material UI, along with React Router v6.

The main purpose of the project was to create a platform for rough cost estimations for clients, depending on the scope and complexity of the project.

During my time at Sigma Technology, my main focus was on implementing authentication flows using tokens, creating user profiles, and performing CRUD operations related to user management. I was also responsible for fixing existing bugs and improving the user experience.

Profile

I am a passionate web developer who is dedicated to finding innovative ways to solve user problems. Through my creativity and innovative thinking, I always strive to deliver excellent results.

Educations & Courses

Medieinstitutet | 2022-2024
Web development within E-commerce

Blekinge tekniska högskola | 2020
Course: Game development
Course: 3D modelling

Skills

Javascript	React React Native
HTML	Node.js Express
CSS/SASS	ASP.NET, C#
Typescript	Java Spring Boot
Material UI	Kanban Scrum
Next.js	Sequelize Mongoose
Git	Figma Blender
Wordpress	MySQL MongoDB

Languages

Swedish Polish

English

Experience

SÖLVESBORGS MUNICIPALITY

JUNI- AUG | 2023

Role:

Tourist Information Officer/Receptionist at the Citizen's Office

Job Description:

During my time at the Citizen's Office, I had to be flexible in my tasks, as no two days were alike. I assisted citizens with fault reports and local bookings, welcomed and introduced tourists to the beautiful city to ensure a meaningful stay, and handled tags and keys for all municipal employees.

I constantly looked for ways to improve efficiency at the Citizen's Office, so I spent my free time developing an application that we summer interns used to keep track of the number of cases handled each day, as well as the type of cases and the time they were handled. It was a successful project that my colleagues appreciated, saving time each day by avoiding handwritten records and eliminating paper usage for this specific task, which also had environmental benefits.

BROMÖLLA - SÖLVESBORGS - KARLSHAMNS MUNICIPALITY

2014-2022

Role:

Activity Leader, Residential Support Worker, Contact Person, Escort, Teaching Assistant, Recreational Leader, Lifeguard

Job description:

Worked closely with people with special needs, guiding them to alternative solutions and recognizing their strengths. I worked in small to medium-sized groups, where I supervised the clients in their daily lives and work. I always ensured that the tasks were rewarding for the individual and carefully studied day by day if the tasks were suitable for them. In my work, I have been attentive and flexible, always ensuring that the clients' days were varied and meaningful.

In my free time, I also organized discos and music cafés where I provided the music for about 40 individuals with special needs. These activities were extremely successful and appreciated, brightening the individuals' daily lives.

I also received an assignment from Sölvesborg Municipality during this period to accompany a boy to Disneyland Paris as a guide. It was a very successful trip, and even after many years, the boy still writes to me, sharing how amazing our trip was together.
